What is a folding frame fish tank?

Aquaculture fish tanks and fish farming tanks need to be easily accessible, with an open top, space conscious for growing fish, easy to clean and customize, and be space conscious when being set up. Folding Frame Tanks offer the solution for portable, easy-to-store water storage for fish farming.

What is a collapsible fish farming tank?

Collapsible fish farming tanks can also be made to fit your exact gallon capacity specifications. These fish farming tanks are easy to clean and can be deployed almost anywhere. The collapsible tank design needs a flat surface to be set up and deployed. Accommodate more fish, depending on the gallon capacity that you choose.

What is an open top collapsible aquaculture tank?

The open top collapsible aquaculture tanks allow you to monitor the different shrimp or fish and adjust the necessary air pumps and chemicals. Collapsible fish farming tanks can also be made to fit your exact gallon capacity specifications. These fish farming tanks are easy to clean and can be deployed almost anywhere.

What is a fish farming tank?

Fish farming tanks are often used for growing and rearing tilapia, shrimp, catfish and other types of fish. Our collapsible water storage tanks consist of a rigid outer frame with a flexible, heavy duty inner liner inside. The outer steel frame houses the liner, which is made from a variety of fabrics, including High Performance Rubber and Vinyl.

Fish farming tanks are open-top, collapsible folding frame tanks with a rigid outer frame and a durable, flexible inner liner. Ideal for shrimp farming, fish farming, aquaculture, and more.
