Explore the innovation Product Center and open up a new future for green energy.

Before installing and using the product, carefully read this manual to understand the safety information and familiarize yourself with the product's functions and features.

All rights reserved. This manual introduces high-voltage lithium batteries. Before installing the battery, please read this manual and carefully follow the instructions during the installation process. If you ...

INVERTER TECHNICAL PARAMETERS Model number Maximum photovoltaic input power 60A*4
Maximum photovoltaic input current 50kw Maximum photovoltaic input voltage 380/400V, 3L/N/PE

Integrated PV Energy Storage Cabinet solutions--modular, easy to deploy, certified to international standards, supporting on/off-grid and peak-shaving applications with global delivery and support.

BlockArk Series High Voltage Cabinet Energy Storage System Easy to install and deploy with large space utilization With self-use, peak shifting, forced charging & discharging and other working modes ...

As an energy dispatching unit for energy storage system, EMS accepts remote dispatching, receives BMS information and realizes control and protection of automatic charging and discharging of energy ...

It converts the direct current generated by photovoltaic modules into alternating current and realizes functions such as electric energy storage, management, and supply, providing clean and renewable ...

Product features: Simple & flexible Standardized design, easy to expand and maintain; Independent air duct design, more stable operation;
