cabinets for its modular and standalone UPS series. These battery cabinets with integral overcurrent protection are compatible with a wide range of battery configurations

Overview
Installing AA, AAA, C, and D Batteries
Putting in a 9-Volt Battery
Inserting Coin and Button Batteries
Locating the Battery Compartment
Your new TV is all plugged in and ready to go when you realize the remote doesn't have batteries installed. For AA, AAA, C, and D batteries, slide the flat, negative end of the battery against the spring onto the device. Then, push the raised, positive end into the flat side of the compartment. For a 9-Volt battery, hold it at a 30-degree angle to line it up with the connector snaps. Press it into the connector. For coin or button batteries, place the positive side facing up unless otherwise directed.
