Abuja, Nigeria - Thousands of rural households in Nigeria are gaining access to reliable electricity for the first time, thanks to a pioneering solar microgrid project spearheaded by "Luminary Power Solutions".

Our expertise in engineering and technology has enabled us to successfully design and build over 320 solar microgrids across West Africa, with a total PV capacity of 20 MWp and energy storage ...

One of the key benefits of the project is its role in reducing rural-urban migration by fostering growth within the community. Local leaders and residents have expressed their satisfaction with the initiative ...

The Federal Government of Nigeria commissioned a 40kWp solar hybrid mini-grid in Rafinzurufi Community, Gwagwalada Area Council, within the Federal Capital Territory, Abuja on Saturday.

More than 80 million people in Nigeria, nearly 40% of the population, lack access to electricity. The Energy Sector Management Assistance Program (ESMAP) helped expand such access by supporting ...

After 10 years without electricity supply, the Minister of Power, Chief Adebayo Adelabu yesterday laid the foundation for the Rubochi 900kWp interconnected and the Ikea 100kWp solar mini - grid,...

The Rural Electrification Agency (REA) in partnership with a private developer, Nayo Tropical Technology Limited at the weekend commissioned a 40KwP Solar Hybrid Mini-grid in Rafinzurfi Community, ...

The group also announced it has commissioned a new control center at REA's headquarters in the capital city of Abuja, a facility that will host data from all of the country's mini-grids.

Mr Okenwa said that the project would reverse rural urban migration. The Rural Electrification Agency has inaugurated a 40-kilowatts peak solar hybrid mini grid in Rafinzurufi Community, Gwagwalada ...
