What is air 40 wind turbine?

The AIR 40 is an ideal wind turbine for hybrid systems with solar to offset those cloudy or wintery periods. AIR 40 is built and backed by the worldwide leader in small wind. The AIR 40 is designed to be mounted on tubing or pipe with a 1.9 inch (48mm) outside diameter. This is equivalent to 1.5 inch SCH 40 pipe.

What makes air 40 different from other wind turbines?

AIR 40's optimized electronic controls deliver energy quietly and efficiently. Extensive third party testing and certification shows more consistent output than the competition. AIR 40 is part of the latest generation of AIR products--the world's best-selling wind turbines--with more than 135,000 units sold in more than 120 countries.

How much wind does the air 40 produce?

It can also be used in conjunction with a solar system to supplement battery charging. The AIR 40 will produce 40 kWh per month with an average wind speed of 13 miles per hour and requires a start up wind speed of 7 mph.

Which wind turbine should I Choose?

We recommend AIR 40 for small battery-charging applications: remote homes, telecom, industry, lighting and more. The AIR 40 is an ideal wind turbine for hybrid systems with solar to offset those cloudy or wintery periods. AIR 40 is built and backed by the worldwide leader in small wind.

AIR 40 is the premier wind turbine for land applications. It operates efficiently across a wide range of wind speeds, providing power for telecommunications, water pumping, lighting, SCADA, off-grid ...

Description Ryse Energy Air 40 Land Wind Turbine Generator 48v (Formerly Primus) AIR 40 is the best choice to provide energy for off-grid homes, water pumping, lighting, telecom and anywhere you ...

Primus 1-AR40-10-48 AIR 40 Wind Turbine When you need energy in marine environments, the 1-AR40-10-48 delivers. Use it for SCADA, telecom, security, cathodic protection -- you name it. With ...

AIR 40 is the premier micro-wind turbine for land-based applications. It operates efficiently across a wide-range of wind speeds, providing energy for telecom, water pumping, lighting, SCADA, off-grid ...

Air 40 wind turbine 48v

AIR 40 Land Wind Turbine AIR 40 Land Wind Turbine is the premier micro-wind turbine for land-based applications. It operates efficiently across a wide range of wind speeds, providing energy for remote ...

Ryse Energy AIR 40 48VDC Wind Turbine The Ryse Energy (formally known as Primus Wind Power) AIR 40 model 1-AR40-10-48 wind generator is for land use only and designed to work in medium to ...

Ryse Energy AIR 40 48VDC Wind Turbine The Ryse Energy (formally known as ...

Primus Wind Power's Air wind turbines are the #1 selling small wind turbine generator line in the world! The Primus Air 40 is the premier wind turbine for off-grid living, boating, RV'ing, outdoor lighting, ...

AIR 40 Wind Turbine The Proven Choice For Remote Energy AIR 40 is the premier micro-wind turbine for land-based applications. It operates efficiently low to moderate wind speeds, providing energy for ...

Primus Windpower 1-AR40-10-48 > Air 40 Land Wind Turbine 48V Quiet operation in low to moderate wind regimes AIR 40 is the best choice to provide energy for off-grid homes, water pumping, lighting, ...
