What is a battery cabinet / rack?

EverExceed designs customized battery cabinets / racks for individual batteries. The cabinet or racking system can be specified to accommodate any battery cell. From flooded to sealed, from lead acid to nickel cadmium and from vertical to horizontal all kinds of battery cabinet / rack can be designed flexibly to save the space in battery room.

What is a typical battery cabinet?

A typical cabinet integrates batteries, racking and chargers into an indoor (NEMA 1 or IP21) or outdoor (NEMA 3R or IP54) rated enclosure. There are many different options and accessories available, making every system unique and built to your site-specific needs.

Where can I find the instruction manual for the batteries?

Inside the door there is a document pocket containing the instruction manual for the batteries. The sections can be fixed together to form a single cabinet. Where required, the cabinet is completed by a special compartment or switch/disconnector cubicle containing the protection equipment.

Where can a battery be installed?

Batteries can be installed on pull-out drawers or fixed shelves. We are pioneers in power electronics industry. Eram Power Electronics Company is a leading global power electronics manufacturer having worldwide operations with production facilities in Saudi Arabia and India for last 26 years.
