Does Prince Edward Island have solar power?

Click here to let us know. This is a complete solar power guide for Prince Edward Island. Prince Edward Island is ranked the #1 province and territory in the country for installing solar power.

Do solar panels work in PEI?

While the net metering program in PEI works well, pairing your solar panels with a home battery gives you even more control. You can store your own excess energy to use during a power outage, providing true energy independence. As battery prices come down, expect to see this become a very popular addition to solar installations.

Does Pei have a solar electric Rebate program?

The Government of PEI Solar Electric Rebate Program makes solar power more affordable than ever before by providing a financial incentive for Island homeowners, farms and businesses to install solar PV panels. Solar incentives will help reduce greenhouse gas emissions and create jobs in PEI's renewable energy sector.

How do solar incentives work in PEI?

Solar incentives will help reduce greenhouse gas emissions and create jobs in PEI's renewable energy sector. In addition to PEI solar energy rebates, financing is available through the Government of Prince Edward Island to assist with the up-front costs of solar installation. Confirm eligibility (see Terms and Conditions on application form).
