GS-style photovoltaic brackets, which feature a design similar to satellite receiving antennas" "dish" supports, include a north-south horizontal axis and an east-west inclined axis.

Fujian Antai New Energy Technology Co., Ltd. was established in 2006 and is headquartered in Xiamen City, Fujian Province. It is a national high-tech enterprise specializing in the research and ...

Engineered for durability and smart sun-following algorithms, our PV mounting solutions ensure optimal performance in utility-scale and commercial projects. Backed by 20 years of solar racking expertise, ...

Antai emphasized that the pre-engineered modular design assures higher precision, better quality control, and minimal wastage of materials in a controlled factory environment, which ...

On October 10th, Antai New Energy signed a cooperation agreement with Indian EPC company Hild Energy for a 372MW tracking bracket project.

Engineered for challenging environments, this sophisticated SmartTrail(TM) algorithm ensures your photovoltaic project operates at peak efficiency--adapting seamlessly to complex terrains and ...

The document is an installation manual for the ANTAI Universal Tracking System, detailing safety recommendations, installation procedures, and component specifications.

Find out all of the information about the ANTAI product: single-axis solar tracker ANT-Surface. Contact a supplier or the parent company directly to get a quote or to find out a price or your closest point of sale.

Here's the bottom line: while solar panels soak up the spotlight, Antai Photovoltaic Brackets are working overtime behind the scenes. They're like the bass player in your favorite band - you might not notice ...
