What is a solarcontainer?

The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest. Panels lay flat on the ground.

What is solarcont GmbH?

SolarCont GmbH is an Austrian joint venture set up in 2022 by container technology specialist Gföllner and Austrian PV system supplier Hilber Solar. This content is protected by copyright and may not be reused. If you want to cooperate with us and would like to reuse some of our content, please contact: editors@pv-magazine.com.

How many households can a solar Container Supply?

Based on an average power consumption of a 4-person household of 4000 kWh per year and a location in Southern Germany, the solar container can supply approx. 32 households with climate-friendly electricity. At a location in Southern Europe it can even be up to 50 households due to the high solar radiation.

What makes Hilber Solar GmbH Special?

With Hilber Solar GmbH, the cross-generational and outstanding know-how flows into SolarCont GmbH as a guarantee for a perfectly coordinated and highly efficient photovoltaic system.

SOLAR CONTAINER PV solutions The DAS Energy Solar Container is ready to generate electricity after just a short installation period. The modules have an output of between 24 and 80 kWp, enough to ...

Once the rail system and transport unit are installed, the container is virtually invisible when the fully wired module frames are extended. The container therefore does not cast a shadow ...

Franz Hilber founded Hilber Solar in 1991 and started with the production and installation of PV systems in Austria. In the years that follow, the German market is increasingly served.

Solarcont has developed a portable, containerized PV system featuring 240 solar modules on a folding system for easy removal and storage.

Austria solar container system Agent

Austrian startup Solar Container has unveiled a highly sophisticated and portable photovoltaic energy system capable of fitting 240 solar panel modules into a standard-sized ...

This system is realized through the unique combination of innovative and advanced container technology. Our pioneering and environmentally friendly solar systems: Folded solar ...

The container measures 6 meters x 2.4 meters x 2.9 meters and weighs 20 tons. It consists of 240 solar modules placed on a folding system that can be removed and stored. The system has a capacity of ...

Austria-based Solarcont has just launched Solarcontainer, a shipping container-sized device that lets you set up a mobile solar power plant just about anywhere. This grid-independent ...

Austrian startup Solar Container has introduced a groundbreaking solution to portable renewable energy with its innovative SolarCont system, housed in a standard-size container. This ...

Der solarfold Container ist ein bis ins kleinste Detail durchdachtes plug-and-play-System für viele Anwendungsbereiche. Der mobile Antrieb - bestehend aus einer flexiblen Mitnehmereinheit welche ...
