This partnership will support a series of coordinated initiatives including joint research into battery end-of-life (EoL) issues in tropical climates and feasibility studies for establishing a ...

Discover how Fiji's innovative lithium battery technology bridges energy gaps while empowering industries worldwide. As global demand for reliable renewable energy solutions surges, Fiji's smart ...

This includes exploring the feasibility for a battery recycling hub in Fiji dealing with both lead acid and lithium battery chemistries.

With plans to deploy 50MW of storage by 2027, Fiji's becoming the Switzerland of energy innovation - neutral in the fossil fuel wars, armed with killer battery tech. Upcoming projects include underwater ...

By producing eco-friendly products, supporting the local workforce, and promoting responsible recycling practices, the company plays a crucial role in safeguarding Fiji's environment ...

Our engineers put expertise and precision into each and every Pacific battery. Pacific batteries provide longer life, less corrosion and lower cost of ownership, qualities you'll find in all our products from our ...

In a pioneering effort for the Pacific region, Sunergise International subsidiary Clay Energy, in collaboration with the Fiji Government and funded by the Korea International Cooperation Agency ...

The partnership follows on from the First Pacific Battery Briefing that was delivered by Sydney-based Battery Pollution Technologies to various Fijian Government Agencies in May 2025.

The strategic collaboration will support a series of coordinated initiatives including joint research into battery end-of-life issues in tropical climates and feasibility studies for establishing a ...
