Does Argentina have a battery storage tender?

Argentina has opened a \$500 million battery storage tender aimed at adding 500 MW of new energy storage capacity in the Buenos Aires metropolitan area. The AlmaGBA program, managed by CAMMESA, offers long-term contracts with fixed payments and financial guarantees to attract developers.

Does Argentina have a battery energy storage system?

Argentina has taken a major step toward modernizing its energy infrastructure with the launch of a 500 MW battery energy storage system (BESS) tender under the AlmaGBA program.

Is Buenos Aires a good place to buy a battery?

Buenos Aires, with its dense urban load and aging infrastructure, is an ideal candidate for such an upgrade. Moreover, this tender arrives at a time when battery prices are becoming increasingly competitive, and international developers are actively seeking new markets with clear regulatory frameworks and stable revenue models.

What is Argentina's contingency plan?

This tender is part of a series of measures that the government of Argentina has been developing since October 2024 with the Contingency Plan, which includes short, medium and long-term actions to recover an electricity system that was in a critical state in December 2023.
