-----

As a complement to onshore and offshore wind energy, photovoltaics and storage systems are essential for the success of the energy transition. This is why, RWE plans to accelerate the development of ...

OverviewDescriptionFossil fuel consumptionEconomic impactPerformanceEnvironmental impactsIn popular cultureExternal linksThe Ivanpah Solar Electric Generating System is a concentrated solar thermal plant located in the Mojave Desert at the base of Clark Mountain in California, across the state line from Primm, Nevada. It was slated to close in 2026, but that decision has been reversed by the California Public Utilities Commission. The facility derives its name from its proximity to Ivanpah, California, which lies withi...

RWE starts the construction of seven new UK solar and co-located battery projects; New sites will have a combined installed capacity of 330MW of solar power with 45MW of co-located battery storage ...

Our research is motivated by three key questions. First, how do new investments in generation technology types, power plant locations, and associated land use requirements in the ...

The U.S. Large-Scale Solar Photovoltaic Database provides the locations and array boundaries of U.S. photovoltaic facilities, with capacity of 1 megawatt or more.

The Ivanpah Solar Electric Generating System is a concentrated solar thermal plant located in the Mojave Desert at the base of Clark Mountain in California, across the state line from Primm, Nevada.

An enormous solar project is moving forward in California, on land that farmers have had to keep fallow as the state restricts over-pumping the aquifers they previously used to irrigate crops.

Across America's power grid, there's a growing gap between what we need and what we'll allow. As the planet warms and climate disasters grow more costly, the U.S. has set a target to reach ...

The Major Solar Projects List is a database of all ground-mounted solar projects, 1 MW and above, that are

## Building solar power plants in the west

either operating, under construction or under development. The list is for ...

WASHINGTON -- The Department of the Interior today announced an updated roadmap for solar energy development across the West, designed to expand solar energy production in more ...

This map displays information on location, fuel type, electric generation, generating capacity, ownership, and emissions for over 10,000 power plants across the country.

Our research is motivated by three key questions. First, how do new investments in generation technology types, power plant ...
