The Swiss company MET Group has taken a key step in its decarbonization strategy with the commissioning of the largest battery energy storage system in Hungary.

The following page is a full list of power stations in Hungary that are at least 50 MW in capacity. The list is based on information from the Hungarian grid operator MAVIR. [1]

MET Group put into operation a battery electricity storage plant with total nominal power output of 40 MW and storage capacity of 80 MWh (2-hour cycle). It is the latest example in a series ...

Situated at the Dunamenti Power Station in Székesfehérvár, the new battery energy storage system builds on MET Group's earlier 4 MW / 8 MWh demonstrator plant installed in 2022 ...

Met Group has inaugurated Hungary's largest standalone battery energy storage system (BESS), a 40 MW / 80 MWh facility located at the Dunamenti Power Station in Székesfehérvár.

Forest Vill Ltd. will build Hungary's largest energy storage facility in Szolnok on behalf of MAVIR Ltd. The Budapest-based company will design and fully implement a 20 megawatt energy ...

MET Group, a Switzerland-based European energy company, has inaugurated Hungary's largest standalone battery energy storage system (BESS) at the Dunamenti Power Station in ...

Our project in Northern Hungary came to a close at the end of August, in which two substations receive energy from a total of five solar power plants.

With this latest BESS plant, which went into operation, MET Group and the Dunamenti Power Station are further strengthening their contribution to the energy transition in Hungary.

# Camping power station factory in Hungary

Located at the Dunamenti Power Station in Székesfehérvár, the new facility boasts a capacity of 40 MW with 80 MWh of storage, capable of operating on a two-hour cycle. The project is ...
