Do I need a power plug adapter in Angola?

You'll need a power plug adapter. Type C - The standard European plug. Commonly used in Europe, South-America and Asia, but also in quite a few other countries. Plugs of type E and F will also fit in a type C outlet. Angola only has one type of power plug; the ungrounded European style type C (Europlug).

Are there electrical outlets in Angola?

No, the electrical outlets in Angola are different from those in the United States. In Angola electrical outlets of type C are used, while the United States has electrical outlets of types A & B. Do I need a travel adapter for Angola? The electrical outlets and power plugs in Angola are of type C (see images).

What type of plugs are used in Angola?

In Angola, there are two main types of power plugs and outlets: Type C and Type F. Type C: Type C plugs have two round prongs on either side of the plug, commonly known as Euro plugs. Mostly used in Europe, South America, and Africa. Type C outlets can be fit with either Type E or Type F plugs.

Are type C plug sockets allowed in Angola?

Typically, type C plug sockets are not allowed to be installed in Angola: these outlets are not earthed and are therefore considered dangerous. Only type F power points are permitted because they are grounded and therefore significantly safer. The only (and rare) exception to this rule is that an old type C outlet should be replaced by a new one.
