One of the largest battery storage projects in South America is being built in the Chilean Atacama desert.

This installation features 180 MW of solar panels coupled with a 112 MW / 560 MWh battery storage system. By enabling the storage of solar energy for up to five hours, Andes Solar II-B provides firm ...

Developer Atlas Renewable Energy has inaugurated the 800 MWh battery energy storage system (BESS) plant in Mar&#237;a Elena commune, in the Antofagasta region.

Integrating solar energy and storage technologies is crucial for addressing the intermittency and grid stability in Chile. Key projects include Cerro Dominador, solar and PV hybrid, Zelestra's 220 MW ...

Grenergy Renovables, an independent renewable energy company based in Spain, is delivering the world's largest hybrid solar and battery storage project, Oasis de Atacama, in northern ...

November 24, 2025 - Enel Chile, through its subsidiary Enel Green Power Chile, has initiated construction of the Las Salinas battery energy storage system (BESS), part of an industrial-scale ...

Ensuring projects are paid for injecting power into the grid during peak periods has supported growth, and ambitious battery energy storage system (BESS) targets are now being ...

By combining grid-connected storage, clean energy optimization, and strong ESG compliance, the project aligns with Chile's national Energy 2050 plan and strengthens the country's climate resilience ...

Chile wants 70% renewable electricity by 2030, and storage is the glue holding that goal together. With tenders like this, the country could outpace Brazil's Amazon Wind Complex and ...
