What is the best solar power generator for camping?

Say you need a solar power generator for a few days of camping, over the course of which you're hoping to power a few small devices, a string of lights, and maybe even a small electric cooler--the Anker Solix C800 Plus is the perfect little unit. About the size of a shoebox and just 24 pounds, it's as portable and compact as can be.

Can you use solar power with a generator?

These solar generators allow you to use solar power while you use that power to survive and thrive whenever and wherever. PLUS you can just plug your appliances and electronics right into the front of it as they come with standard outlets and USB ports.

How do I choose the best solar generators?

To pick the best solar generators, we tested some of these power stations for charging capacity, ease of use, weight, and different use cases. Some picks were reviewed by Popular Mechanics test editor Brad Ford, who provided input for the larger-capacity units.

What is a solar generator / portable power station?

A solar generator or portable power station is a battery in a box. It works like a fuel generator, but instead of using fuel, you recharge it using solar panels.
