Can willbox spray paint containers?

Willbox can spray paint containers in bespoke or fleet colours. Available are a variety of classic RAL or BS4800 colour charts. Our painting services include: - Refurbishment of used containers. - Prep & respray of new containers. - Two tone bespoke paint projects. - One coat applications. - Premium paint projects.

What is the best paint for shipping containers?

The best paint for shipping containers is marine-grade waterborne DTM (direct-to-metal) paint. This type of paint is durable, water-resistant, and corrosion-resistant. It also contains low levels of VOCs in comparison to other types of paint, which makes it safer to use. This is the best paint for shipping containers being used as homes.

Can you paint a shipping container?

The best way to paint a shipping container is to use a pneumatic paint sprayer. Using a paint sprayer is quick and efficient and you can apply a single coat in approximately half an hour. While you can use brushes and rollers to apply the paint, it will take you much longer to finish a single coat. **When Should You Paint a Shipping Container?**

Can you paint a shipping container on a rainy day?

One of the worst ideas you can have is painting a shipping container on a damp, cool, rainy day. Water can get trapped under a coat of paint, which can make it dry with bubbles or ripples under the surface.
