Over the past three years, Tongwei has made a remarkable leap in the solar sector, shipping over 100GW of modules at record-breaking speed.

Tongwei Solar is set to further its investment in solar production with plans to build a 25GW module manufacturing base. This new facility will include ...

Tongwei manufactures 2 solar panel models using TOPCon N-type, PERC Mono cell technology across their lineup. Their flagship THN-EP08M10 580W achieves 22.5% efficiency at ...

Chinese polysilicon giant Tongwei Co. plans to buy a smaller domestic rival, as the industry bids to shrink chronic oversupply of the solar-panel material.

As Liu Hanyuan, founder of Tongwei, stated, "In the context of carbon neutrality 30 years from now, over 50% or even 70% of China's and the world's energy will be provided by PV."

Tongwei Solar, the world's largest polysilicon manufacturer and a leading supplier of solar cells, has ventured into solar module manufacturing. Its product lineup includes PERC, TOPCon, and HJT ...

Wait, no--let's clarify: While Tongwei primarily sells cells to third-party manufacturers, their direct module production began in 2023 through partnerships with European engineering firms.

According to a recent LinkedIn post from Tongwei, the company's solar panels are now listed on the CEC Enhanced List, which is described as recognizing adherence to rigorous quality, ...

For Tongwei, this primarily includes their range of high-efficiency solar panels, which capture sunlight and convert it into usable electricity for your home or business.
