How does the Utilities Regulation Act work in Barbados?

The Utilities Regulation Act works in tandem with the Fair Trading Commission Act, which enables the Fair Trading Commission as the regulator in Barbados to investigate complaints and appeals. The Act governs the Utilities by outlining the duties of service providers and the standards of service and mandates the FTC to ensure reasonable rates.

How much CO2 does Barbados emit a year?

Conditional absolute emissions reductions contribution below the 2008 base year of 705Gg CO₂e (2025) and 1,459Gg CO₂e (2030) respectively. Total economy wide BAU emissions projections of 1,881Gg CO₂e (2025) and 1,958Gg CO₂e (2030) respectively. The National Sustainable Development Policy aims to guide Barbados towards sustainable development.

What is the Petroleum Act of Barbados?

An Act to vest in the Crown the property in petroleum in the territorial waters, exclusive economic zone and continental shelf of Barbados, and to make provision for the search for and recovery of the petroleum, and for related matters.

What does the Customs Act cover in Barbados?

The Customs Act outlines the administration to operate at the air and seaports and customs tariffs. The Act includes but is not limited to the application of tariffs for products imported and exported in Barbados, the process of cargo movement in and out of Barbados, the clearance of cargo and prohibited items.
