Are rooftop solar panels a viable option in the Middle East?

Rooftop solar PV panels are common in a number of countries, but are only now gaining real popularity in the Middle East. Despite the sunny climates, there are still a number of barriers to switching to solar PV. Electricity tariffs are generally low, discouraging customers from switching to self-generated electricity.

Which companies have closed a solar project in Saudi Arabia?

Riyadh-based Acwa Power, Water and Electricity Holding Company (Badeel) and Saudi Aramco Power Company have announced financial close on five solar projects and two wind projects in Saudi Arabia.

Which solar projects are being built in Saudi Arabia?

The featured solar projects are the 2 GW Afif1 and 2 GW Afif2 sites located in the country's Riyadh province, the 3 GW Bisha project in the southern Aseer region, the 3 GW Humaji project in the western Madinah region and the 2 GW Khulis project in the western Makkah region.

Is the UAE a 'front runner' for solar PV?

The Middle East Solar Industry Association (MESIA) describes the UAE as a regional "front runner" for PV with Oman starting to add more significant projects to the regional PV pipeline. Rooftop solar PV panels are common in a number of countries, but are only now gaining real popularity in the Middle East.

Countries in the Gulf Cooperation Council (GCC) are investing heavily in PV generation due to their rich solar resources.

The solar PV plant has been scaled up with the savings from the concessionary loan of \$15 million, provided by ADFD under the second cycle of the IRENA/ADFD Project Facility.

We are grateful for the opportunity to collaborate with the World Bank to examine new paradigms for financing off-grid solar companies and to explore the potential interplay of innovative ...

Obelisk Solar Power of Scatec raised a \$30 million equity bridge loan for this project from the European Bank for Reconstruction and Development (EBRD) in May 2025 (see Middle East & ...

Financing scheme for 15mwh solar cabinet-based system in the middle east

The Middle East and North Africa saw 2019 again confirm the growth and importance of commissioning large projects and launching additional phases of their renewable energy and solar ...

The solar PV plant has been scaled up with the savings from the concessionary loan of \$15 million, provided by ADFD under the second cycle of ...

We will explore the different options for financing an off-grid solar project, including payback periods, return on investment (ROI), and potential tax credits or grants.

Energy America will provide its US-manufactured solar modules for the 100 MW solar and storage project in Uganda, which will be built by its East African subsidiary EA Astrovolt.

A consortium led by Acwa Power, Water and Electricity Holding Co. (Badeel) and Saudi Aramco Power Co. has secured a \$5.9 billion senior debt facility for seven Saudi Arabia renewable ...

Rooftop solar PV panels are common in a number of countries, but are only now gaining real popularity in the Middle East. Despite the sunny climates, there are still a number of barriers to switching to solar ...

3 Global Solar Atlas, a web-based tool commissioned and funded by the Energy Sector Management Assistance Program (ESMAP), a multi-donor trust fund administered by the World ...
