Here is a list of the most recently built solar farms in Georgia. Scroll down to view information on each project like their capacity, construction date, and location.

Power plant details for Moody Air Force Base Solar, a solar farm located in Valdosta, GA. View the monthly generation and consumption, generator details, and more for Moody Air Force Base Solar.

We have constructed and are operating 16 solar farms and additional demo facilities across the state of Georgia, many in partnership with military installations. The largest, at 128 MW of capacity, is located ...

Here are the solar projects in Georgia expected to come online in the next 18 months. These projects are currently under development or construction and represent the near-term growth in clean energy ...

The Robins BESS will be adjacent to the Robins Air Force Base, which will allow Georgia Power to use the pre-existing solar infrastructure instead of constructing new transmission generator ...

Designed to strengthen grid reliability and deliver flexible, dispatchable power, the BESS is part of a broader, multi-phase initiative that also includes a 174 MW photovoltaic (PV) solar facility ...

Find out where Georgia Power's Grid Investment Program is working to improve the electric grid and how these projects benefit your community.

The facilities will be located in Georgia, specifically, in Lowndes, Bibb, Floyd and Cherokee Counties. Furthermore, Georgia Power will develop the projects using the same ...

This pilot aims to secure an initial 50 MW of capacity, providing opportunities for residential and small commercial customers to add solar and storage resources. The goal is to ...
