-----

Our H1 & H2 series inverters use smart self-consumption modes to store free daytime solar. This stored energy then powers the home during expensive peak hours, slashing their monthly grid costs.

Flexible configuration, plug and play set-up, built-in fuse protection. Includes high-voltage batteries for maximum round-trip efficiency. More than 6 hours backup power available. High level of protection, ...

Huawei and Sungrow ranked as the top two global solar inverter manufacturers for the first half of 2025, with scores of 93.9 and 93.7, respectively. This ranking is based on the Global Solar ...

The FOX 5.7kW H1-5.7-US is simple to install to a Grid-tied, Off-Grid, or Battery Storage solar system while being able to manage power to and from Solar, Battery, Grid, Loads, and Generator.

Designed to convert solar energy to AC energy and store energy into a battery, the hybrid inverter has a plug and play set-up, which makes installation and configuration much simpler. Hybrid inverters in ...

H1 series is a low-voltage single-phased hybrid inverter for residential energy storage use. Its power output ranges from 3-6kW and has 3 easy setting modes of use. H1 series also supports 24hrs load ...

THE FOX H1-5.7-US 5.7kW Split-Phase Pre-Wired Hybrid Inverter is an all-in-one system with 2MPPT, WiFi included, a display with remote monitoring, and APS/Tigo transmitter integrated, that is simple ...

With advanced technology and robust features, this inverter optimizes energy yield and extends power generation windows, ensuring maximum efficiency and reliability.

Ready to Boost Your Energy? Includes high-voltage batteries for maximum round-trip efficiency.

Discover the SAJ H1 5K S2, a 5kW hybrid inverter with dual MPPT, WiFi, and smart energy management. Perfect for residential solar power systems.
