Secure your off-grid power needs with our outdoor cabinet energy storage system. Designed for resilience, it offers high-capacity energy storage in a weather-resistant cabinet.

The HJ-G50-112F is a highly efficient and integrated outdoor cabinet energy storage system. The system adopts modular air-cooled architecture, with a rated AC output power of 50kW and a total ...

HyperCube is a liquid-cooling outdoor cabinet suitable for energy storage. It features high safety, a long lifespan, high efficiency, stability, scalability, and rapid response.

Engineered with reinforced steel enclosure and IP55/IP65 protection class for dust, water, and corrosion resistance in severe climates. Combines high-voltage lithium battery packs, BMS, fire protection, ...

Designed for rapid deployment and flexible expansion, it offers high energy efficiency, system safety, and intelligent control for commercial and industrial applications.

The Outdoor Cabinet Energy Storage System is a fully integrated solution that combines safe battery storage, intelligent power management, and weatherproof protection for solar and telecom applications.

Standardized Structure Design: Includes energy storage batteries, power conversion systems (PCS), photovoltaic modules, and charging modules in a compact and highly efficient cabinet.

Easy to Transport and Install: The product shell is made of aluminum alloy, lightweight and easy to handle manually; prefabricated at the factory, and the cabinet can be lifted as a whole;

From outdoor energy storage system cabinets to integrated cloud-based controls, EPC Energy has you covered. We want to help you create a sustainable future.

High-efficiency outdoor cabinet for photovoltaic energy storage on highways

Whether retrofitting existing infrastructure or building a decentralized energy network, this cabinet empowers businesses to cut costs, enhance sustainability, and ensure uninterrupted power.
