Can a Homeowners Association deny a solar panel installation?

Associations can also ask homeowners to get approval before installing solar panels. The HOA cannot deny approval if the homeowner meets the solar energy requirements. They can only step in if installing it would cause nuisance or unreasonable discomfort to people with normal sensibilities.

Will installing solar panels void my roof warranty?

No, if a certified professional installs your solar panels correctly, this shouldn't void your roof warranty. In the rare case that your mounting penetrations do void your roof warranty, the workmanship warranty from your solar installer may also cover the parts of your roof where the system is installed.

Do solar panels need a building permit?

Most solar installations require local building permits, regardless of HOA approval, which is a separate process. Solar access laws also differ by state. So it's important to research your local laws before moving forward with your installation. What are "Reasonable Restrictions" for Solar Panels?

Can I install my own solar panels?

Installing your own solar panels can be legal and cost-effective, but navigating the regulations requires careful planning. Most states allow homeowners to install solar panels themselves, provided they obtain proper permits, follow local building codes, and pass required inspections.
