How do I connect my inverter to my phone?

You can connect to your inverter by scanning the barcode with your phone's camera. If you are connecting to a previously used inverter, click "continue with the last scanned QR code" instead of rescanning the same code. If you are unable to scan the barcode, you can insert the inverter connection details manually by clicking the link at the bottom.

Why is the login screen not displayed after scanning the QR code?

If the login screen is not displayed after you scan the QR code, check whether your phone is correctly connected to the device WLAN. If not, manually select and connect to the WLAN. If the message This WLAN network has no Internet access. Connect anyway? is displayed when you connect to the built-in WLAN, tap CONNECT.
