Will Hungary's new battery energy storage system help Green the grid?

The new facility supports a growing push to green Hungary's power grid. Hungary has just switched on its largest battery energy storage system (BESS) to date, stepping up its role in Central Europe's growing grid-scale energy transition.

Will Hungary become the EU's next battery powerhouse?

Dive into insights on revenue stacking, market dynamics, regulatory shifts, and Hungary's ambition to become the EU's next battery powerhouse -- all ahead of the Solarplaza Summit Hungary PV & Storage, taking place in Budapest in Q4 2025. Access to the full white paper? Sign up for free today!

Is Hungary betting big on batteries?

Hungary is betting big on batteries-- and the market is moving fast. This in-depth white paper from Solarplaza unpacks Hungary's rapid energy storage evolution, from the country's first national BESS auction and new co-location rules to a restructured grid access regime and booming battery manufacturing sector.

Is Hungary stocking up on battery backup?

Hungary isn't alone in stocking up on battery backups as it charts its green energy path. In neighbouring Bulgaria, a massive 124MW/496MWh battery energy storage system went live in Lovech earlier this year.

/BUDAPEST, HUNGARY, June 19, 2025, 10:00 CET, MET Group/ Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated today. MET Group put into ...
