For on-site EPC projects, we match the best local resources based on your region and provide remote or on-site assistance. From equipment supply to installation and commissioning, we offer a complete ...

The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO₄) ...

China's leading BESS company, dedicated to developing the best battery energy storage system and improve the efficiency of renewable energy storage.

Helping to minimize energy costs, it delivers standard conformity, scalable configuration, and peace of mind in a fully self-contained solution. The battery ...

One LiHub cabinet consists of inverter modules, battery modules, cloud EMS system, fire suppression system, and air-conditioning system. The LiHub is IP54 rated and can be installed both indoors and ...

IP54-rated cabinet with active thermal management for harsh weather and temperature extremes. Supports parallel connection for flexible system expansion based on project needs. Integrated BMS, ...

Designed for harsh environments and seamless integration, this IP54-rated solution features a 105KW bi-directional PCS, optional air- or liquid-cooled thermal ...

Our dedicated first-class technical team drives the evolution of technology and equipment through relentless independent research and development. Merging world-class automation and ...

Huijue Group's Home Energy Storage Solution integrates advanced lithium battery technology with solar systems. Ranging from 5kWh to ...
