What is a photovoltaic curtain wall?

Building Integrated Photovoltaics At Onyx Solar we provide tailor-made photovoltaic glass in terms of size, shape, transparency, and color for any curtain wall design. Photovoltaic curtain walls transform any building into a self-sufficient energy infrastructure and enhance the building's architectural design.

What is curtain walling?

Curtain walling is an aesthetic walling designed to protect your building from the elements. Curtain walling is usually made from glass and gives buildings a modern bright and airy feel. We have decades of experience in installing high-quality curtain walling systems on a range of different types of buildings in Ireland and the UK.

Who is Coen glazing systems?

About Us. Established in 2018, Coen Glazing Systems brings together over 40 years of experience in the facades industry to deliver a variety of skills including curtain walling, rainscreen cladding, aluminium fabrication, rooflight, and aovs.

Who are bespoke glazing?

Bespoke Glazing are a very solution based company and the quality of installation and end product is really second to none. We would have no hesitation in recommending BGS for any specialist facade contract." "Over the years, Graepels have worked on several large projects with BGS, and we have always found them a pleasure to work with.

Our modern workshop allows us to fabricate curtain wall, aluminium windows, lift and slide doors, aluminium cill, flashings and heavy duty brackets custom made to each project in house.
