A complete critical infrastructure solution in a single chassis that delivers the reliability, resilience and security of a traditional data centre to a variety of edge environments.

In addition to our Energy 20ft or 40ft Container Solutions, this ESS Outdoor cabinet offers a compact system in a robust outdoor housing as the ideal energy storage solution for a wide range of applications.

Designed for outdoor deployment, the cabinet features weather-resistant construction, efficient ventilation or air conditioning, and options for battery and DC distribution integration. With robust ...

The PV grid-connected cabinet is a key power distribution unit that connects the solar photovoltaic array to the power grid. Its primary function is to safely and compliantly feed the AC power--converted ...

IP55/65 Economical Outdoor Cabinet The padlocking swing handle provides a secure door and tight seal Seams are continuously welded, with no sharp edges on cabinet corners ETL, CE, ROHS, 3C ...

Wind and photovoltaic integrated outdoor cabinet HJGF-XFD-01 The wind and photovoltaic integrated outdoor cabinet is an outdoor integrated cabinet made of high-quality metal sheet materials.

The outdoor photovoltaic energy cabinet can provide reliable housing for network servers, edge computers, professional equipment, monitoring systems, photovoltaic, and battery systems.

Engineered with reinforced steel enclosure and IP55/IP65 protection class for dust, water, and corrosion resistance in severe climates. Combines high-voltage lithium battery packs, BMS, fire protection, ...

They are manufactured using high-quality galvanized steel sheets, insulation wool, high-temperature resistant EPS or PU materials, featuring a double-layer thickened outer shell for a longer service life.
