Why should you use a silent box on a generator?

The silent box muffles the noise of the generator effectively reducing the original sound by 10-15 decibels. It keeps outdoor animals away from it. Protecting pets and discouraging other wildlife like squirrels and rodents from causing damage to your generator. Easy access to the generator when needed during any emergency.

Specifications

How much does a generator enclosure weigh?

ACCESS: In case of emergency, the enclosure allows you to quickly and easily access your generator. You will know exactly where it is and how to get to it. Ships in two boxes-A box weighs 45.4 lbs and B box weighs 40.1 lbs. The unit frees up your outdoor storage shed or garage.

What is a Hudson stealth generator box?

Specifications The Hudson stealth generator box offers all-weather protection, noise reduction, and security for your generator, ideal for residential or commercial use.

How do I protect my generator?

Security: make sure your generator is theft-proof and safe to be **AROUND:** you don't want curious visitors to get trapped inside the enclosure or injured!. Please place the silent box at least 20 feet away from your house.

ACCESS: In case of emergency, the enclosure allows you to quickly and easily access your generator.
