What is wind power?

The Wind Power is a comprehensive database of detailed raw statistics on the rapidly growing sphere of wind energy and its supporting markets. It contains data about wind farms, turbines, manufacturers, developers, operators, owners and also pictures and cartographical data

Which wind turbine manufacturers dominate the world?

As the world accelerates its shift toward clean energy, the competition among wind turbine manufacturers is at an all-time high. Leading wind power turbine manufacturers like Vestas (Denmark), Siemens Gamesa (Spain), Goldwind (China), and GE Vernova (France) continue to dominate global markets with massive installed bases and expanding order books.

Who makes wind turbines?

German firms such as ENERCON and Nordex, as well as China's Mingyang Smart Energy and Envision Energy, are also key players shaping the future of wind power. This ranking highlights the top 15 makers of wind turbines worldwide, according to their installed capacity as of October 2025. 1.

Are electrical generators suitable for high-power wind turbines?

Within the framework of these criteria, it may help to determine whether the electrical generator is technically feasible and economically viable for high-power wind turbines. Finally, this review could help to determine suitable generators for use in large and ultra-large wind energy systems. Upwind and downwind wind turbines.

Share of wind power in electricity generation and consumption The world's installed wind power capacity now meets well over 10% of global electricity demand - and much more than nuclear ...

The Wind Power is a comprehensive database of detailed raw statistics on the rapidly growing sphere of wind energy and its supporting markets. It contains data about wind farms, turbines, manufacturers, ...

Check out our blog for the best wind turbine manufacturers, including the largest OEMs in the wind industry and leading wind power generation companies.

Vestas SGREGE Vernova Enercon Goldwind Envision Mingyang Nordex Windey0. Sewind Founded: 1998

List of wind power generators is published

Location: Beijing, China Goldwind is a well-known name in the global wind power market and one of the largest windmill turbine manufacturers in the world. The Chinese manufacturer has installed more than 16.3 GW of wind turbines in 2023, most by any wind turbine manufacturer. The company manufactures smart wind turbines that are safer...See more on blackridgeresearch The Wind PowerWind energy databaseThe Wind Power is a comprehensive database of detailed raw statistics on the rapidly growing sphere of wind energy and its supporting markets. It contains data about wind farms, turbines, manufacturers, ...

Discover all relevant Generator Companies in China, including Growatt New Energy and Aksa Power Generation Asia Pacific

The Wind Power is a comprehensive database of detailed raw statistics on the rapidly growing sphere of wind energy and its supporting markets. The Wind Power tabulates data from a variety of players in ...

The Global Wind Power Tracker (GWPT) is a worldwide dataset of utility-scale, on and offshore wind facilities. It includes wind farm phases with capacities of 10 megawatts (MW) or more. A wind project ...

This paper presents an overview of the emerging trends in the development of electrical generators for large wind turbines. To describe the developments in the design of electrical ...

30 Wind Power Generator Manufacturers in 2026 This section provides an overview for wind power generators as well as their applications and principles. Also, please take a look at the list of 30 wind ...

The "Worldwide Wind Farms Database" report has been added to ResearchAndMarkets "s offering. The wind energy sector has achieved a significant milestone w...

Including Vestas, NextEra, Suzlon, Adani Green Energy and GE Vernova, this Top 10 runs through the world"s leading wind power manufacturers Wind power is a leading solution as the ...
