Will China build a lithium-ion battery factory in Portugal?

February 2025 Chinese battery manufacturer CALB has confirmed its plans to build a production facility for lithium-ion batteries in Portugal. The factory with an annual capacity of 15 gigawatt-hours is intended to start production in 2028. According to CALB, the investment amounts to two billion euros.

Will China's Lithium battery factory get EUR350 million Reindustrialisation support?

Lisbon, Feb. 24, 2025 (Lusa) - The Chinese CALB lithium battery factory in Sines, in south western Portugal, whose EUR2 billion project was launched on Monday in Lisbon, could receive up to EUR350 million in support under the European incentive scheme for reindustrialisation.

Where is a new lithium battery factory located?

It covers 45 hectares and includes five production buildings. Battery manufacturer CALB is set to invest EUR2 billion in a new lithium battery factory in Sines, Portugal. The facility will be located in the Sines Industrial Zone, covering an area of 45 hectares and comprising five production buildings.

Which country has the largest lithium reserves in the world?

Portugal has some of the world's largest reserves of lithium, a key ingredient in the batteries that power electric cars: an estimated 60,000 tonnes, according to the US Geological Survey. Chinese battery manufacturer CALB will build a production facility for lithium-ion batteries in Sines, Portugal.

According to CALB, the factory will create 1,800 direct jobs. Portugal has some of the world's largest reserves of lithium, a key ingredient in the batteries that power electric cars: an ...

Modern portable power stations integrate lithium-ion (LiFePO₄) batteries, solar charging compatibility, and multiple output ports (AC, USB, DC) to support various devices.

Key Insight: The newly launched Lisbon Battery Energy Storage Industrial Park positions Portugal as a leader in sustainable energy solutions, offering scalable storage systems to stabilize renewable ...

a sunny afternoon in Lisbon, where wind turbines spin lazily and solar panels soak up rays. But what happens when the sun sets or the wind stops? Enter the Lisbon Energy Storage ...

Lithium battery power station in Lisbon

The factory in Sines, Portugal, involves a EUR2 billion investment. Construction is set to begin this year and finish by 2028. The facility will produce 15 GWh of lithium batteries. It covers 45 ...

The Battery manufacturer CALB, headquartered in China, is planning to invest 2 billion euros in Sines, 1h30 min south of Lisbon, to build a lithium battery manufacturing plant aimed at ...

Why Lithium Energy Storage Is Gaining Momentum in Lisbon Lisbon's commitment to achieving 55% renewable energy by 2030 (per Portugal's National Energy and Climate Plan) has accelerated ...

Barroso lithium mine earns EU strategic status, fast-tracks permits and taps new funding. Discover how Portugal bolsters its EV battery supply chain and jobs.

CALB plans to build a lithium-ion battery factory with an annual capacity of 15 gigawatt-hours in Portugal, going into operation in 2028.
