LONGi provides you with the most comprehensive product data information so that you can quickly understand LONGi's full range of products.

LONGi Solar reserves the right of interpretation.

The application level of LONGi Solar module is Class II, which can be used in systems operating at ≥ 50 V DC or ≥ 240 W, where general contact access is anticipated;

The LONGi Photovoltaic Modules Installation Manual provides essential safety and installation guidelines for PV modules, emphasizing the need for qualified personnel to perform installations.

LONGi Bright products are used on buildings to achieve an appealing appearance along with a moderate amount of PV generation capacity, such as industrial roofs and building facades, powering ...

LONGi launched its mono-PERC modules in 2016, featuring integrated PERC technology on monocrystalline silicon and low light degradation, and its cell efficiency has increased from 21% to ...

This manual elaborates on installation and safety use information for PV power generating modules (hereinafter referred to as module) of LONGi Solar Technology Co., Ltd. (hereinafter referred to as ...

The LONGi Hi-MO 5 solar panel series is also compliant with the IEC 61730, IEC 62941, and UL 61730 certifications. The modules also include an IEC Class C fire resistance ...

The main performance parameters of solar panels include short-circuit current (ISC), open-circuit voltage (VOC), peak power (PM), current and voltage at maximum power ...
