In a pioneering move for state-owned utilities in the Balkans, Montenegro's Elektroprivreda Crne Gore (EPCG) is looking to deliver 185 MWh of battery energy storage capacity across four locations.

Montenegro's state-controlled power utility Elektroprivreda Crne Gore (EPCG) and Switzerland-based decarbonisation solutions provider E2S Power have signed a memorandum of intent to jointly develop, ...

Summary: Explore how advanced energy storage systems are transforming Podgorica's renewable energy landscape. Discover practical solutions for solar/wind integration, cost-saving strategies, and Montenegro's ...

Elektroprivreda Crne Gore (EPCG), the largest electricity producer in Montenegro, has taken a significant step towards enhancing energy sustainability by adopting the Project Task for Battery Electro-Storage Systems ...

EPCG's pioneering move to install battery energy storage systems is a significant step in the modernization and stabilization of Montenegro's energy infrastructure. The project will improve energy ...

Montenegro's state-owned power utility, EPCG, has initiated the preparation of a feasibility study and project design for the procurement of battery energy storage systems (BESS) with a total capacity ...

Montenegro invests EUR48M in 240 MWh battery energy storage systems to enhance grid stability and accelerate its renewable energy transition.

EPCG, Montenegro's largest electricity provider, is investing in two four-hour battery energy storage systems (BESS) to strengthen grid resilience and balance supply and demand. Each system will ...

By embracing cutting-edge storage solutions, EPCG demonstrates a proactive stance on addressing modern energy challenges, setting a precedent for neighboring countries.
