What is a 15u server rack?

15U server racks and data cabinets from Server Room Environments are available for quick delivery and are designed to house and protect sensitive IT servers, IoT and networking devices. Options for 15U racks include paint colour choices, front and rear door styles, standard and heavy-duty castors, blanking plates, fan trays and cable management.

Are network cabinets compatible with server cabinets?

Our network cabinets seamlessly interface with server cabinets, creating a cohesive infrastructure that simplifies power distribution and monitoring. Compatibility with standard 19-inch rack units ensures that server rack cabinets and network racks can be installed side-by-side.

What are the features of a network cabinet?

Network cabinet includes: Server rack, network rack, and wall mount cabinet. Various Door Optional: Glass, Vented, or Solid Door. Optimized for cable managing. High loading capacity up to 1,500KG (Server Rack). Massive Ventilation Rate up to 78% with the perforated door.
