A new long duration energy storage system that deploys molten tin for heat transfer has received \$20 million in Series A Plus funding.

An Envision Energy battery unit was unveiled in September and surprised the industry with its massive energy capacity.

California and New York led Q2 CCI storage installations, accounting for over 70% of total capacity, while Illinois ...

Here are ten notable innovations taking place across different energy storage segments, as highlighted in GlobalData's Emerging Energy Storage ...

These startups develop new energy storage technologies such as advanced lithium-ion batteries, gravity storage, compressed air energy storage ...

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy ...

Battery storage. In 2025, capacity growth from battery storage could set a record as we expect 18.2 GW of utility-scale battery storage to be added to the grid. U.S. battery storage already achieved record ...

The new compressor is described as the world's most powerful single-unit compressed air energy storage (CAES) system, with a maximum discharge pressure of 10.1 MPa and an ...

Tesla's energy storage plant in Shanghai's Lin-gang Special Area commenced operation on Feb 11, as the assembly line started the production of ...
