How many solar projects has energyre secured under power off-take deals?

US renewable energy developer energyRe said on Thursday it has secured the output of 360 MW solar projects under power off-take deals with an unnamed utility in South Carolina.

What is solar magazine?

Solar Magazine is here to get you updated about what is going on in the solar energy industry by providing quality solar energy news regarding different aspects. You can also subscribe to our newsletter to get solar news regularly.

Will solar power grow in 2025?

We expect that solar electricity generation supplied to the grid managed by the Electric Reliability Council of Texas (ERCOT) will grow from 56 BkWh in 2025 to 106 BkWh by 2027. Increasing amounts of battery storage capacity help to support the fluctuations in solar output during the day.

What's new at Solar Energy Expo 2026?

Solar Energy Expo 2026, Poland's flagship PV-plus-storage trade fair, returned this month with a small show-floor footprint but a sharp focus on flexibility and market reform, as well as the storage, inverter and grid-forming technologies shaping the nation's next phase of grid integration.

Get the latest news and updates on solar power from Tech Xplore. Stay ahead with updates on innovations, research, and breakthroughs.

Check out our selection of solar energy news from all over the globe. All the top recent events in solar thermal and photovoltaic market. The latest research, innovative technologies, ...

News from the photovoltaic and storage industry: market trends, technological advancements, expert commentary, and more.

Latest solar power news from Europe, Latin America, Sub-Saharan Africa, APAC, MENA and more. Stay updated on solar PV, solar energy, policy & projects.

Latest news on solar power, covering industry advancements, government policies, major projects, and

technological innovations shaping the future of solar energy.

In our STEO forecast, utility-scale solar is the fastest-growing source of electricity generation in the United States, increasing from 290 BkWh in 2025 to 424 BkWh by 2027. Almost 70 ...

Which form of energy is the cheapest? CBS News asked experts to find out. CBS News looked at the cost of producing coal, gas, nuclear, wind and solar energy to determine which is the ...

We are here to bring you the latest solar news, progress and innovations, and everything else that you need to and want to know about the solar industry.

Solar Energy Information. Read the latest news and techniques for efficient solar photovoltaic power, new solar energy systems and more.

Solar power Solar and wind power has grown faster than electricity demand this year, report says A new analysis of solar and wind power shows its generation worldwide has outpaced ...
