This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight and environmentally friendly aluminum rail system, ...

To ensure the safety of loading, unloading, unpacking and storage of PV modules, please read this manual carefully. When you need to unpack and install the modules, you can search and download ...

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever.

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems. The lightweight, ...

Modular solar power station containers represent a revolutionary approach to renewable energy deployment, combining photovoltaic technology with standardized shipping container platforms.

To ensure the safety of unloading of PV modules, please read this manual carefully. In the process of unloading, the forklift should be selected reasonably according to the size and weight of the goods.

To ensure the safety of loading, unloading, unpacking. and storage of PV modules, please read this manual carefully. When you need to unpack and install the modules, you can search and download ...

This guide serves as a reference for inspecting, transporting, unpacking, handling and storing LONGi PV solar modules to ensure safe practices for you and the modules.
