What connector does a LiFePo 4 battery pack use?

Our LiFePO 4 battery packs use the Tracer Bullet connector and come with the TR8132 Bullet to Right Angle 12V socket as standard with a wide range of accessories available. Integrated Electronic 'Battery Management Systems' (BMS) provides the following protection:

Are LiFePo 4 batteries safe?

The Tracer range of LiFePO 4 Battery Packs has been developed to be the safest rechargeable technology available in the tracer range. Housed in a rugged ABS case that is waterproof rated to IP64 the prismatic LiFePO 4 cells provide an identical voltage output to SLA while weighing in at 1/3 of the weight.

How do I charge a LiFePo 4 module?

LiFePO 4 Modules require a Neutrik socket converter (TR8158, TR8159 or TR8162) to charge via a 12V TR8206N/TR8212N (ultra-fast charger) or 24V TR8208N. Integrated Electronic 'Battery Management Systems' (BMS) provides the following protection:

What is a tracer LiFePo 4 battery module?

The Tracer LiFePO 4 Battery Modules use our high-performance prismatic cells for a lightweight construction that is ideal for fitting into bespoke equipment. The module comes with an in-line LED fuel gauge and two bare end wires; one red (+ve) and one black (-ve). These wires are to be used for charging and discharging the battery.

The portable lithium iron phosphate battery pack delivers exceptional cycle life, often exceeding 3,000 charge cycles while maintaining capacity. This longevity makes them cost-effective investments ...

Designed as a lighter-weight, longer-lasting replacement for lead acid batteries, our LiFePO4 battery packs offer superior performance and durability. With models ranging from 12.8V 50Ah to 12.8V ...

Himax Electronics offers high-performance LiFePO4 (Lithium Iron Phosphate) battery packs for industrial, solar, EV, marine, and portable applications. Discover lightweight, long-lasting, safe, and ...

E& J LiFePO4 battery packs are designed to provide a portable and waterproof solution, making them easy to

Portable lithium iron phosphate battery pack

carry and install. With their robust IP67 waterproof standard case, these battery packs offer ...

Learn what to look for in a lithium iron phosphate battery pack, from voltage and capacity to safety features and price range.

LiFePO₄, the safest lithium chemistry, is available in 12V and 24V across Tracer battery packs, modules, and carry cases for energy delivery.

Applied Filters: Power Batteries Battery Packs Battery Chemistry = Lithium Iron Phosphate (LiFePO₄) ...
Reset All Please modify your search so that it will return results. To use the less than or greater than ...

Talentcell 12V LiFePO₄ Battery Pack LF4106, 2000 Cycles Rechargeable 12.8V 6Ah 76.8Wh Lithium Iron Phosphate Battery with DC 12/9/6 Volt and 5V USB Output for LED Strip, CCTV Camera, Mobile ...

12V 100Ah Lithium Battery, LiFePO₄ Battery Built-in 100A BMS Protect, Group 31 Deep Cycle Portable Power, Lithium Iron Phosphate Battery for Trolling Motors, Yacht, Marine, RV, Home Energy (1 Pack ...

Our LiFePO₄ battery packs deliver reliable, long-lasting power for applications like solar energy storage, electric vehicles, and portable devices. Built with lithium iron phosphate technology, these battery ...
