Buy Dedicated for Toyota Land Cruiser Prado 200 150 2008-2023 2020 2019 2018 Trunk 12V to 220V Power Plug Converter Car Modification at Aliexpress for . ...

Not without a new inverter and new wiring (thicker gauge) from the battery. You'd be better off to leave what is there in place and run new wiring and a stronger inverter.

As for your main question, the 220V socket is useless for anything besides laptop or cellphone charger. You can't even charge the ecoflow on it, even if you set the charge rate to 100W. ...

There is no space to fit a larger unit and the wiring is totally inadequate to use for any other device, best to just keep this 100W inverter as is.

The Leaptrend Sirius series 3000W 12V Pure Sine Wave Inverter is ...

This innovative 220V converter is designed specifically for Toyota Prado and Land Cruiser models, providing a seamless modification for the trunk power plug. Perfect for road trips or outdoor ...

It's called OHMS law. Increase the voltage by 20 times 12V to 240V and it decreases the current by 20 times and the reverse is true if dropping the voltage, current increases by the same ratio. It might be ...
