What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

What are NEMA rated outdoor Telecom enclosures?

NEMA-rated outdoor telecom enclosures are cabinets that meet specific application requirements to withstand outdoor elements. They come in various NEMA standards such as 3,3R,4,4X,and 6. Our telecom outdoor cabinets are factory tested,field proven,and worry-free.

Why should you choose a KDM outdoor telecom enclosure?

A KDM outdoor telecom enclosure protects your telecommunications equipment outdoors and withstands outdoor elements such as temperature extremes,dust ingress,ice,shock hazards,and UV damage. It also safeguards against moisture,condensation,chemicals,and corrosive gases that can affect sensitive components within.

Why is a custom telecom enclosure necessary?

Custom outdoor telecom enclosures from KDM are necessary because they help you constantly adapt off-the-shelf product requirements. KDM relies on both custom and standard NEMA standard telecom cabinets to protect their internal equipment. Our telecom enclosures are manufactured with the highest quality standards under stringent ISO 9001:2005 manufacturing & quality management system.

Discover durable outdoor telecom enclosures designed for ultimate protection and performance in any environment.
