Qatar invites bids for first major battery storage project 28 January 2026 By Mark Dowdall

The State of Qatar has begun a pilot project to store grid-scale power using a 1MW/4MWh lithium-ion energy storage system-- a first for the state that relies completely on power from gas and oil.

This pioneering project, the first of its kind in Qatar to store energy using batteries, aims to secure production capacity at peak times to raise energy efficiency and enhance sustainability.

Search all the latest and upcoming battery energy storage system (BESS) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Qatar with our comprehensive online database.

The expansion project is part of Qatar's long-term strategy to secure energy market dominance and meet growing global demand for cleaner energy. ... QIA is also investing in foreign ...

The project, considered the world's largest solar-storage project, will install 3.5GW of solar photovoltaic capacity and a 4.5GWh battery storage system. The project has commenced in November 2024. [pdf]

Qatar is leading the Gulf's energy transformation with Battery Energy Storage Systems (BESS). Learn how BESS is reducing emissions, optimizing solar power, and modernizing the grid in line with ...

While their core business remains focused on oil and gas, QatarEnergy is strategically investing in solar power and exploring battery storage solutions to diversify its portfolio and contribute to a more ...

This project, the first of its kind in Qatar, to store energy using batteries aims to secure production capacity at peak times, in order to raise energy efficiency and enhance sustainability...
