What is a stainless steel IP54 enclosure?

Stainless Steel IP54 Enclosure KDM manufactured IP54 enclosure to provide top-quality, easily customized cabinets that will perform well in your application. At KDM, our range of IP54 enclosures features a variety of different materials such as aluminum, carbon steel, and stainless steel.

What is KDM IP54 enclosure?

KDM IP54 enclosure has a high level of protection against particles such as dirt, dust, oil, and other non-corrosive material. Also protects from voltage and moving parts for people who come in contact with the enclosure. Not just that, IP54 adds protection from splashing of water against the machine from any direction.

What materials are used for IP54 enclosures?

The materials used for IP54 enclosures aren't different from materials used for other types of enclosures. They can be made from carbon steel, galvanized steel, and stainless steel- usually of the grades 304 or 316L. Of course, each has its advantages and disadvantages. Carbon steel is usually duller than stainless steel.

How can I customize my IP54 electrical enclosure?

You can custom with cutouts, insulation, hinges, latches, or locks. At KDM, we are dedicated to meeting the cost-savings enclosure you need without compromising quality and the high performance you expect from your IP54 electrical enclosure.
