The Studina solar power plant has entered regular commercial operation, developer CWP Europe announced. With 174 MW of peak capacity, the project is currently Romania's largest ...

MASS Group's EUR1+ billion investment aims to deploy large-scale battery storage in Romania, addressing grid volatility from renewable expansion and providing fast-response balancing ...

SolarToday Eastern Europe, a full-scope energy storage solutions provider, has successfully commissioned a 10.32 MWh utility-scale battery energy storage system (BESS) in ...

Nova Power & Gas's 400 MWh project in Cluj County is the largest battery energy storage system (BESS) to date to have been connected to Romania's grid.

The new storage project aims to balance the national energy grid and provide electricity during peak hours at affordable prices for citizens. This follows the company's existing EUR1.2 billion ...

Bucharest, July 22, 2025 - Nova Power & Gas, a Romanian energy company and part of the E-INFRA Group, announces the launch of the largest battery energy storage project in Romania.

Privately held MASS Group Holding plans to invest more than EUR1 billion (~\$1.18 billion) in large-scale battery energy storage projects in Romania after reaching an agreement with the Romanian ...

By providing flexibility and fast-acting energy reserves, the battery systems will help integrate more renewable energy sources into the grid. This will not only support Romania's climate ...

When wind and solar generation is high, the system can struggle to absorb excess energy. When production drops during calm weather, in the evening, or during peak winter demand, ...
