Fueled by a drop in solar panel costs, an urge to fight climate change, the availability of real but sometimes confusing government incentives and a desire to save on rising energy bills, solar ...

No information about the cost to remove or transfer solar panels, which could lead you to believe you have future options that might not be available or affordable

The advisory was one of several new actions announced by Treasury, the Consumer Financial Protection Bureau and the Federal Trade Commission to address unfair and deceptive consumer ...

Minnesota is suing firms who finance solar power systems for homes. The case alleges that four lending companies deceived customers with hidden, upfront fees in exchange for lower ...

Rapidly increasing demand for sustainable energy sources has sparked an explosion of alternative energy companies, especially in the residential solar market. This development has ...

The "2023 Solar Incentive Program" is an empty promise. American homeowners might be eligible for federal tax credits for solar installations or state subsidies for solar energy, but not...

It's likely a scam. While there are some government-funded solar programs for households that qualify, "going solar" isn't free. Honest businesses will tell you exactly how much it'll ...

These scams start with an unexpected phone call, message on social, or even an in-person visit. The so-called official offers you an "energy audit" to reduce your utility costs. Or they might try to sign you ...

The program provides guaranteed loan financing and grant funding to agricultural producers and rural small businesses for renewable energy systems or to make energy efficiency improvements.

Rural solar power generation subsidy fraud

The false claims assessed in the report cover a wide variety of arguments against solar development. These include factually inaccurate arguments related to human health, the ...
