What is the global solar photovoltaic (PV) module market value?

Source: [abriendomundo/Shutterstock.com](https://www.abriendomundo.com). The global solar photovoltaic (PV) module market has been growing at pace and is projected to rise to \$133.12bn in market value by 2028, according to Power Technology's parent company, GlobalData.

How much is the solar PV module market worth in 2023?

According to GlobalData's Solar PV Modules and Inverters Market Trends and Analysis report, the global solar PV module market was valued at \$102.76bn in 2023. The Asia-Pacific (APAC) region led the charge in 2023, registering \$60.15bn.

How big is the solar PV module market?

The solar PV module market size exceeded USD 280.5 billion in 2023 and is set to expand at more than 8.2% CAGR from 2024 to 2032, owing to rising need to capture sunlight and convert it into direct current (DC) electricity.

Does China still dominate the global solar PV module market?

China continues its dominance of the global solar PV module market. Declining costs of PV module production have made solar installations more affordable globally. Source: [abriendomundo/Shutterstock.com](https://www.abriendomundo.com).

SolarTraders is the B2B marketplace for photovoltaics. Installers compare modules, inverters & storage from 100+ distributors. Best prices & fast delivery.

After a 2025 that marked an all-time low for solar module prices, the new year has opened with a series of notable increases, driven largely by recent commercial moves in China and ...

As PV modules are the central component of the industry, this analysis reviews market conditions that affect solar panel pricing and availability and makes reasonable predictions about the ...

The solar PV module market is experiencing sustained expansion, driven by accelerating renewable energy adoption, declining module production costs, and supportive government policies ...

Asia Pacific is projected to lead the global market with a 34.2% share in 2025 followed by the North America

region, which is expected to hold a 20.5% share in 2025. The market has seen ...

The global solar photovoltaic (PV) module market has been growing at pace and is projected to rise to \$133.12bn in market value by 2028, according to Power Technology 's parent ...

Transforming New Energy Products & Services Trade through DaaS ... Power & Sun Areemss PnS 1

Platts, part of S& P Global Commodity Insights, has observed strong interest in transparent solar module pricing following the exponential growth in the manufacture, trade and installation of ...

Trade restrictions are expanding, risking slower deployment of solar PV. As trade is critical to provide the diverse materials needed to make solar panels and deliver them to final ...

The solar PV module market size was valued at USD 346.6 billion in 2024 and is set to grow at a CAGR of 7.2% from 2025 to 2034, driven by rising environmental awareness and the growing need to curb ...
