-----  
How do I Configure my outdoor solar battery enclosure?

You can choose any configuration for your outdoor solar battery enclosure. Configurations are customized using racks, dividers, inner compartments, and separate doors. Racks and dividers can be used to configure the space inside your battery enclosure. Racks can be used as tiers for many batteries.

What is an outdoor rated battery enclosure?

Browse our range of outdoor rated battery enclosures and discover why we're a trusted name in the telecom and solar industries. Outdoor battery cabinet enclosure is designed for keeping a stable temperature inside cabinet so as to increase service life and stability of battery and equipment.

Are KDM solar battery cabinets waterproof?

KDM solar battery cabinets provide you with the ultimate outdoor dust-tight, watertight, and weatherproof solution for your solar batteries. These cabinets not only have special gaskets against dust and liquids but also locking mechanisms to secure your enclosure against unauthorized access.

What should a solar battery enclosure include?

You can also include safety spill containment/drain, a DC disconnect, insulation, and a sun shield. A spill containment refers to a threshold or the enclosure opening that ensures no dripping or spills overflow out of the enclosure. This is particularly useful if your solar batteries are of the flooded type.
