---

On the Pack assembly line, the battery modules are assembled into a complete pack, which includes the module casing, the heat dissipation system, the Battery Management Unit (BMU) and so on.

Thanks to our experience in constructing special machines for battery assembly, we have the expertise to fulfill your needs. We understand the individual assembly steps and requirements that are necessary for high ...

Build high-quality lithium battery packs with automated production equipment, complete process development, on-site installation, and lifetime technical support.

Openex provides full-service metal fabrication for the lithium battery manufacturing industry, producing structural assemblies, enclosures, containers, and equipment frames for battery production lines.

This state-of-the-art production line achieves seamless automated battery pack production. Spanning an impressive 16 meters, it integrates cutting-edge technology through the following equipment.

From cell stacking to final pack assembly, we provide a complete range of supporting equipment to build a robust, efficient, and scalable lithium battery production line.

With cutting-edge laser technology and intelligent manufacturing solutions, we empower global clients in electric vehicles (EV), energy storage, 3C electronics, aerospace, and medical devices.

For cell/module pack assembly, PIA Automation offers flexible and highly automated systems for the efficient production of battery cells, modules, and battery packs. These systems are scalable, adaptable to different ...

Summary: Lithium battery pack manufacturing requires specialized equipment for efficiency and safety. This guide explores core machinery, quality control tools, and emerging trends to optimize production.

## Solar container lithium battery assembly pack equipment

We are able to supply a wide range of solutions for different cells type, such as: cylindrical, prismatic, and pouch cell production. its experience at your disposal to help you develop your project. We also develop ...
