How do I avoid getting scammed with solar panels?

To avoid getting scammed, you need to know what to look out for and when to walk away. Here's our guide to spotting solar panel scams and finding a great installer. If something you see or hear from a salesperson sounds too good to be true, it probably is.

Are solar panels a scam?

Here's how to steer clear of the scams: Do some research. Avoid solar companies that say a government program will cover the whole cost of solar panels -- or say they're from (or affiliated with) the government. These are lies. If you're looking at solar energy for your home, get quotes from reputable providers with a valid license.

How do I check for solar power scams?

Use Scamio, our AI-powered scam detection tool to check for solar power scams. Before filling in any form or replying to an unsolicited email asking for personal information to apply for any solar power installation programs, send it to Scamio.

What are the most common solar scams?

One of the most prevalent solar scams involves misleading lease agreements or power purchase agreements (PPAs). While these financing options are legitimate ways to access solar energy, unethical companies may misrepresent the terms or benefits of these agreements.

These bad actors prey on homeowners' lack of knowledge about solar technology and incentive programs, using deceptive tactics to close deals and maximize profits. This article explores the most ...

Going solar can be a great way to save money and improve your home, but choosing the wrong company can lead to disaster. Here's how to avoid solar panel scams

Scams are unfortunately common in the solar industry. Learn more about some of the most likely scams you may face when trying to go solar.

An attractive substitute for conventional power sources is solar energy. Unfortunately, the surge in demand has coincided with an increase in solar company scams. These frauds prey on gullible ...

# Solar power installation scam routine

Solar power may be the energy of the future, but in the present there are lots of solar scammers trying to take your money. Here's how to tell.

When temperatures rise, utility costs do, too. While reputable companies can help you save money with clean or solar energy improvements, scammers offer more than they can deliver. The scams ...

The three most common solar scams are so-called free solar panels, requests for detailed personal or financial data right away, and misleading contracts.

Did a salesperson knock on your door and promise free rooftop solar panels at no cost to you? Or say you'll never have to pay another electricity bill because government programs, grants, or rebates ...

A solar panel scam traps homeowners in long-term financial and legal headaches, often before they realize what has happened. As solar energy adoption grew, dishonest companies exploited incentives, ...
