Modular design with high energy density, compatible with 500V~1500V system. Back-to-back or left and right installation saving a footprint above 50%.

Our main products are solar inverters, solar charge controllers, energy storage systems, batteries, etc., which are widely used in home, commercial, and industrial domain, providing customers with high ...

1500V Liquid Cooled Battery Energy Storage System (Outdoor Cabinet). Easily expandable cabinet blocks can combine for multi MW BESS projects.

High voltage and large capacity: Meet the energy storage needs of high power and large capacity, store more electric energy, and provide stable power support for large electrical equipment or systems.

Support max. 4 cabinets in parallel, friendly for medium-sized project integrators.

Save space, flexible placement: Supports back-to-back installation, side output, and does not require pre-installed cable ducts/cable racks for battery cabinet installation, saving on site costs.

Industry-leading high energy density that ensures more power is stored in less space. Unlocks the potential of renewable energy applications with compact, powerful solution, designed for optimal ...

Our system is designed to enhance energy density and thermal performance, accelerate installation times, engineered for optimal serviceability, and minimizing capital expenditures (CAPEX).

Each outdoor cabinet is IP56 constructed in a environmentally controlled liquid cooled cabinet including fire suppression. Multiple 373kWh cabinets can be installed together creating up to 4472kWh energy ...

The Huijue Group Off-Grid Solution comprises three main components: photovoltaic systems, energy storage

Subway User Outdoor Energy Storage Cabinet 1500V

systems, and off-grid systems, enabling energy self-sufficiency.
